

ROSS LEVER HOISTS

Model – HSH-E 1/4 Ton Lever Hoist

This is a great mini-hoist weighing only 5 pounds and capable of lifting loads of up to 550 Lbs.

The Ross **HSH-E** pocket hoist is one of the most compact and universal industrial ratchet hoists in the market. Great for mechanics, tool shops, and outdoorsmen.

- **Forged upper and lower hooks with latches**
- **High quality plated load chain**
- **Lightweight stamped steel design**
- **Compact, allows for use in just about any confined space**
- **Impact resistant, all-steel frame, gear case and cover**
- **Free wheeling mechanism allows for quick and easy take-up and positioning of hook**
- **Rubber handle for ease of use**
- **Metric rated**
- **Meets ANSI B30.21 Specifications**
- **Individual serial numbers stamped on hoist**
- **Hoists tested at 125% of rated load prior to shipment**
- **Individual Load Test Certificates provided with each hoist**
- **1 Year Warranty against any defects in material or workmanship**

Part Number	Capacity* Lbs./Tons	Lift (ft.)**	Strands of Load Chain	Min. Distance Between Hooks (in.)	Handle Length (in.)	Average Handle Effort	Shipping Weight (lbs.)
RL0.255	550 / 1/4	5	1	9 5/8	6 1/8	66	5

* Hoists are metric rated (Metric Ton) • ** Standard Lifts are shown. Other lifts available upon request.
